REHABILITATION OF CONDITION 3 COMMUNICATIONS EQUIPMENT

Review communications stock in condition 3 and recommend disposal or repair.

Numerous items of communications equipment in warehouse stock are in condition 3 (in need of repair). All equipment that is economically repairable will be rehabilitated and returned to warehouse stock.

August 1961

This program has been progressing satisfactorily. Over 100 recorders have been delivered to the contractor for rehabilitation. All of these recorders must have new heads in addition to other work. The heads alone will cost approximately \$200 each.
